

Gifts from nature

Robyn Nola

480/659-6652, www.robynnola.com

In an effort to heal after being diagnosed with a rare kidney disease in 2001, Robyn Nola combined the healing power of color and nature into her art. She did, in fact, get better, and she started a new career.

Nola's Blooming Affirmations set (wholesale, minimum order of 12) is based on the premise of color therapy — the use of colors to maintain body vibration at a frequency of good health and harmony. It includes more than 25 affirmations corresponding with magnificent glossy, full-color floral photographs on double-sided cards and a 3.875-inch display easel (perfect for display on a desk, table, or dresser). The flowers look so real you would expect to smell them. Each set is placed in a purple organza bag, making it a wonderful inspirational and spiritual gift.

Also available are healing Nightlights (wholesale each, minimum order of 12) in many different nature photograph designs. Each light is packaged in a bubble pack but can be easily removed for display purposes. Each of the original photographs, surrounded by a black plastic 3.5-by-4.25-inch frame, is lit from behind with an easy on-off switch on the plug.

The Nightlights are perfect for a bathroom, hallway, or meditation room. In addition to the colorful motifs, Nola offers black-and-white photos of spiritual statuary such as angels and buddhas.
